# 2024 Price List
❧ Please note, new prices in effect as of January 1, 2024 ❧

## Brook Trout

*Eggs*
- Domestic X Temiscamie hybrid strain at $0.10/egg and a minimum order of 5,000 eggs.

*Yearlings for spring stocking – Limited Availability*
- New York State Domestic strain brook trout (4.0" to 6.0" length) at $2.00/fish
- Temiscamie x Domestic hybrid strain brook trout (7.0" to 9.0" length) at $3.25/fish

*Fingerlings for fall stocking*
- Temiscamie x Domestic hybrid strain at $1.05/fish for orders of 499 fish or less and $1.00/fish for orders of 500 fish or more.
- Little Tupper (Adirondack Heritage) strain at $1.05/fish for orders of 499 fish or less and $1.00/fish for orders of 500 fish or more.
- Both of these strains will measure between 3.0" to 4.0" at time of stocking. Under ideal conditions, the typical size can be 7.0" to 9.0" by the fall of the following year.

## Landlocked Atlantic Salmon

*Fingerlings for fall stocking – Limited Availability*
- West Grand Lake strain at $1.50/fish.

*Yearlings for Spring Stocking – Limited Availability*
- West Grand Lake strain (average 7.5" length) at $4.00/fish.

## Delivery

- The delivery charge for eggs, fall fingerlings and spring/fall yearlings is set at $2.00/mile, one-way. Personal pick-up at our hatchery is also an option for smaller orders of eggs or fall fingerlings only. Fingerlings are bagged with water and pure oxygen at an additional cost of $35.00. Due to the larger size, spring and fall yearlings will need to be delivered.

- Eggs may be shipped, but when shipped over any distance, special packaging and next-day air delivery is required and will often double the total cost.

## Availability

Due to natural variability in the raising of live fish, not all species, strains, sizes or eggs may be available from one year to the next. Though extremely rare, occasionally pre-existing orders may not be able to be fulfilled due to circumstances beyond our control.
